ADVANCED MODEL ROCKETS

RING LEADER

The Ring Leader is a large diameter high stability sport rocket with a large base ring that has the added bonus of producing a sharp whistle.

Specifications: Length:34.75" Dia.:.3" MMT:29mm Wt:20oz Recommended Motors:F40-6, F62-6, F80-6, C40-10, G80-10

TD89-DRAKE / TM89-MALLET

This interesting kit can be built as either the TM89-Mallet tactical missile or the TD89-Drake target drone.

Specifications: Length:32.5" Dia.: 2.5" MMT: 29mm Wt:24oz Recommended Motors:F40-6, F62-4, F80-6, C40-7, G80-7

THUNDERWELL EXPRESS

This is a smaller version of our popular large kit, dedicated to the project which launched the first man made object into orbit and beyond.

Specifications: Length:33.75" Dia.: 2.14" MMT: 29mm Wt:28oz Recommended Motors:F40-6, F62-6, F80-6, C40-10, G80-10

F104 STARFIGHTER

Nicknamed "The missile with a man in it", this scale model of the F104 will attract attention wherever it is flown.

Specifications: Length:39" Dia.:.3" MMT:29mm Wt:34oz Recommended Motors:C40-8, G80-7

HYPERSONIC TRANSPORT

For those quick trips to the moon or just the other side of the planet, the Hypersonic Transport will get you there in style.

Specifications: Length:33" Dia.: 3" MMT: 29mm Wt:28oz Recommended Motors:C40-5, G80-7

CENTAURUS

The Centaurus is a hail back to those future ideas from yesteryears. This is one of those kits that is as fun to build as it is to fly.

Specifications: Length:39.5" Dia.:.2.5".4" MMT:29mm Wt:30oz Recommended Motors:F40-6, F62-6, F80-6, C40-7, G80-7

SWARM

MEGA K-1

GTX

HIGH POWER ROCKETS

MEGA K-1

This kit is a scale up of our popular smaller kit which is based off of a 1950's Russian atomic rocket.

Specifications: Length: 33" Dia.: 4" MMT:
38mm Wt:36oz Recommended Motors:
G80-10, H90-12, H132-12

SWARM

With a single 38mm mount and eight 24mm mounts the Swarm can handle all those large clusters that you dream about.

Specifications: Length: 43" Dia: 4" MMT: (1) 38mm and (8) 24mm Wt:36oz Recommended Motors: G80-4, G80-7 and (8)D11-P, H90-10 and (8)D11-P, H123-10 and (8)D11-P

GTX

The GTX is the perfect beginning high power rocket, that can handle a variety of motors.

Specifications: Length: 34" Dia: 3" MMT: 64mm Wt:27oz Recommended Motors: G80, H70, I161, 165

LIMITED EDITION KITS

These are custom made on order kits. Allow 4-6 weeks for delivery.

MEGA GALACTIC MARAUDER

This limited edition kit is a scale up of our popular smaller kit and with over a foot and a half of wingspan it is sure to demand attention.
Specifications: Length: 51.5" Dia.: 5.5" MMT: 54mm
Wt: 8lb Recommended Motors: J211-6, J275-10

THUNDERWELL

Dedicated to the project which launched the first man-made object into space. This kit is perfect for level 2 certification.
Specifications: Length: 73" Dia.: 5.5" MMT: 54mm
Wt: 8lb Recommended Motors: J211-6, J275-10, J415-10, K850-10

F2H4 BANSHEE

Whether you want to display it or fly it (with provided flight extension) this kit will bring a unique flavor to your collection.
Specifications: Length (with flight extension): 47.75" Span: 17.25" MMT: 29mm Wt: 2lb Recommended Motors: F80-5, G40-7, G80-7

SPACE PROBE 587

Inspired by a Von Braun design this unique kit is for those rocketeers who enjoy building as much flying.
Specifications: Length: 30.5" Dia.: 6" MMT: 29mm
Wt: 2.5lb Recommended Motors: F80-5, G40-7, G80-7.
